VILLE WANTS YOU.'

EDITORIAL COMMENT

Call 449 if you fail to get the
Kentuckian promptly. And if you
have a news item, phone it to the
same number.

The Union County Fair has been
delayed off until the war ends.

Von Hertling says Germany will
not keep Belgium "in any form what-
ever," and for once he tells the truth.

Capt. Geo. H. Spalding, of Colum-
bus, Ky., is dead of wounds received
in action.

There must be a terrible smell in
hell tonight—von Hindenburg is
dead.

The House sustained the Presi-
dent's veto of the \$2.40 wheat
amendment to the agricultural bill
172 by 72.

If Hindenburg is really and entire-
ly dead, the tears shed over the good
news would not moisten a postage
stamp.

The report from the Hague Friday
that Gen. Hindenburg was ill and had
been succeeded by Gen. Ludendorff
prepared us for the report yesterday
that he was dead. It is hardly neces-
sary to break it so easily.

HOUSING IN WASHINGTON

Washington, D. C., July 12.—The
United States Civil Service Commis-
sion announces that it is now in a
position to state definitely to the
public that steps will be taken at
once to relieve the congested living
conditions in Washington which have
been an obstacle in the way of re-
ceiving the civil service to meet war
needs. The commission is advised by
the Department of Labor that the
erection of temporary hotels and res-
taurants, to be conducted under Gov-
ernment supervision for the use of
Federal employees in Washington
will begin at once.

It is expected that the first units
will be ready for occupancy early in
September. Accommodations will
first be provided for approximately
5,000 persons. Additional accommo-
dations will be provided as they are
needed. Each room will be arranged
for the occupancy of but one person.
In the meantime, the Room Regis-
tration Office, which is conducted by
the District of Columbia Council of
Defense under the auspices of the
Council of National Defense, is able
to provide rooming and boarding ac-
commodations for the new appointees.
At the latest report of the Room Re-
gistration Office had on its lists more
than 5,000 rooms which had been in-
spected and found available for Gov-
ernment employees.

Those who arrive on the late trains
may find accommodations for the
night by applying at the booth of the
District Council of Defense, which is
prominently situated in the Union
Station, where all trains arrive.

PEACE RUMORS IN THE AIR

WIRE CONTROL RESOLUTION PASSES SENATE 46 TO 16

(By Associated Press.)

Washington, July 13.—The House
resolution empowering the President
to take over the telegraph, telephone,
radio and cable systems for the per-
iod of the war was adopted by the
Senate tonight, forty-six to sixteen.
Senator Beckham was absent but he
favored the resolution.

Although statements of cabinet of-
ficers indicated the powers might be
used as soon as granted, there has
been no announcement as to just
what the President intends to do or
when. During the debate it was said
the government would take over only
trunk lines and connecting systems
leaving to their own management
thousands of rural small indepen-
dent systems.

OUR WAR INTENTIONS.

"We intend what our forefathers,
the founders of this Republic, in-
tended. We in America believe our
participation in this war to be the
fruitage of what they planned. Our
case differs from theirs only in this,
that it is our inestimable privilege
to concert with men out of every na-
tion what shall make not only the li-
berties of America secure, but the li-
berties of every other people as well.
"There can be but one issue. The
settlement must be final. There can
be no compromise. No halfway de-
cision is conceivable. "The blinded
rulers of Prussia have roused forces
they knew little of—forces which can
never be crushed to earth again; for
they have in their heart an inspira-
tion and a purpose which are death-
less and of the very stuff of triumph."
—From the President's Mount Vernon
Address.

JOE STITES WOUNDED

IS RECOVERING FROM WOUNDS
IN A HOSPITAL IN FRANCE

Corporal Joseph G. Stites is in a
hospital in France suffering from a
wound received in action, the nature
of which is not known. The infor-
mation came in a letter signed "A
Red Cross Nurse" to the young man's
mother, reading as follows:
Somewhere in France, June 24,
1918.

Dear Mrs. Stites:
Your son started to write a letter
to you, but his right arm is a little
stiff yet, and so he asked me to tell
you that he is getting along very
well and will probably be moved in-
to a base hospital in a few days. It
will be some time before he can go
back into the trenches again, but he
is certainly improving, and will short-
ly be all right again.

Suppose you have been reading
about the fine work the marines have
been doing; we have a great many
of them here in the hospital and they
are surely fine and brave. I am sure
we can all be very proud of the work
they are doing.

Your son wishes me to tell you that
he thinks about you at home often
and doesn't want you to worry about
him. We are in a comparatively
safe place here, and he said to tell
you he is more comfortable than he
has been since leaving home. He
will write as soon as he is able.

Very Sincerely,
—A RED CROSS NURSE.

HURT BY A FALL.

Jack Winfree, an eight-year-old
son of Mr. and Mrs. John W. Winfree

while playing and was badly hurt.
His jawbone and right arm were both
broken. His injuries were attended
to and he is now doing well.

PRESIDENT'S WHEAT VETO

FARMER, SAYS THE PRESIDENT,
DOES NOT DEMAND HUGE RE-
WARDS TO SERVE NATION.

Washington, July 12.—In vetoing
the \$28,000,000 annual agricultural
appropriation bill because of its
amendment fixing the government
guaranteed minimum wheat price at
\$2.40 a bushel, the president submit-
ted the following message:

"I regret to return without my
signature so important a measure as
H. R. 954, entitled, 'An act making
appropriation for the department of
agriculture for the fiscal year ending
June 30, 1919,' but I feel constrained
to do so because of my very earnest
dissent from the point of view of
principle as well as wise expediency
from the provisions of that part of
section 11, which, prescribes a uni-
form minimum price for No. 2 north-
ern spring wheat of \$2.40 a bushel.
"I dissent upon principle because
I believe that such inflexible legisla-
tive price provisions are insupportable
of being administered in a way
that will be advantageous, either to
the producer or to the consumer, es-
tablishing as they do arbitrary levels
which are quite independent of the
normal market conditions and be-
cause I believe that the present meth-
od of regulation by conference with
all concerned has resulted in the most
satisfactory manner, considering the
complexity and variety of the subject
matter dealt with.

"It is evident that the present
method of determining the price to
be paid for wheat has had the most
stimulating effect upon production,
the estimated crop of spring wheat
for this year exceeding all high re-
cords in a very remarkable and grati-
fying way. By an overwhelming ma-
jority of the farmers of the United
States, the price administratively fixed
has been regarded as fair and lib-
eral and objections to it have come
only from those sections of the
country where, unfortunately, it has
in recent years proved impossible to
rely upon climatic conditions to pro-
duce a full crop of wheat and where,
therefore, many disappointments to
the farmer have proved to be un-
avoidable.

"Personally I do not believe that
the farmers of the country depend
upon the stimulation of prices to do
their utmost to serve the nation and
the world at this time of crisis by
exerting themselves to an extraordi-
nary degree to produce the largest
and best crops possible. Their pa-
triotic spirit in this matter has been
worthy of all praise and has shown
them playing a most admirable and
gratifying part in the full mobiliza-
tion of the full resources of the
country. To a very greatly increased
production of wheat they have added
an increased production of every
other important grain, so that our
granaries are likely to overflow and
the anxiety of the nations arrayed
against Germany with regard to their
food supply has been relieved.

"The administrative method of
agreeing upon a fair price has this
very great advantage which any ele-
ment of rigidity would in large
part destroy, namely, the advantage
of flexibility, rendering possible at ev-
ery stage and in the view of every
change of experience, a readjustment
which will be fair alike to producer
and consumer.

"A fixed minimum price of \$2.40
per bushel would, it is estimated, add
\$2 per barrel to the price of flour; in
other words raise the price of flour
from the present price of \$10.50 to
\$12.50 at the mill and inasmuch as
we are anticipating a crop of approx-
imately 90,000,000 bushels of wheat
this increase would be equivalent to
the immense sum of \$337,000,000.

"Such an increase in the price of
wheat in the United States would
force a comparative increase in the

DEATH OF GEN. HINDENBURG IS REPORTED

(By Associated Press.)

Amsterdam, July 13.—Field Mar-
shal von Hindenburg is dead, accord-
ing to the newspaper Les Nouvelles,
published at the Hague, which has it
from good sources in the occupied
districts of Belgium.

He suffered a stroke of apoplexy
after a stormy interview with the
German emperor at the great head-
quarters at Spa.

The emperor and the field marshal
are declared to have had a quarrel
concerning the German offensive to-
ward Paris.

The field marshal died of conges-
tion of the brain.

The interview took place on May
16, Les Nouvelles says.

It was followed by an apoplectic
stroke which ultimately resulted in
the field marshal's death.

T. J. GUTHRIE

DIES IN NASHVILLE UNEXPECT-
EDLY WAS NEWS REACHING
HERE LAST NIGHT.

A telegram was received by rela-
tives here last night from Nashville
of the very unexpected death of
Mr. Thos. Jefferson Guthrie. The
telegram was signed by Mason &
Hanger, contractors, for whom Mr.
Guthrie was working on the con-
struction of the big powder plant.
The message was a very brief one
and did not reveal the time, manner or
cause of death, but stated that he
died there yesterday.

Mr. Guthrie was a man about 65
years of age and had a family. He
lived on 208 Jenuip Ave.

Just before going to press another
message was received stating that
Mr. Guthrie fell off the top of a build-
ing yesterday morning about seven
o'clock but it is not known if death
was sudden. The body will arrive
here this morning either on No. 92
or 52 train. Funeral arrangements
had not been made last night.

price of Canadian wheat. The Cana-
dian Government would, of course,
be obliged to make all their purchases
at the increased figure and the whole
scale of their financial operations in
this country in which the Government
of the United States is directly as-
sisting, would be thereby correspond-
ingly endangered. The increase would
also add very materially to the cost
of living, and there would inevitably
come an increase in the wages paid
in practically every industry in the
country. These added financial and
economic difficulties, affecting practi-
cally the whole world, cannot, I ex-
pect, have been in contemplation by
the Congress in passing this legisla-
tion.

QUIET DAY IN FRANCE VON HERTLING TALKS PEACE

(By Associated Press.)

WAR SUMMARY.

FOLLOWING THE FLAG

LIEUT. MCDANIEL ARRIVES TO-
DAY.

Lieut. Robert F. McDaniel enroute
from Ft. Morgan, Ala., will arrive
here this morning at 5:17 for a brief
visit to his sisters. He is an officer
in the 3rd Aviation Battalion. Dr.
McDaniel has not been at home for
two years. He enlisted in the service
as a volunteer from Florida in the
Medical Reserve Corps.

Ten volunteers for special service
will report at Camp Buell, Lexington,
tomorrow where they will be given
60 days special training at Govern-
ment expense. These ten are: Er-
nest Rhea, Whit Radford, Eugene
Burnett, Wm. E. Jesup, Isaac Gar-
rott, James Malcolm Pendleton, Bow-
ling S. Wood, Thos. N. Sizemore,
Frank L. Garrott and Geo. H. Harris.
All these will leave this afternoon
except Wood, Sizemore and Harris
who will leave tomorrow morning.
This call was for eleven men for
which twelve volunteered, but Fred-
erick M. Hursfurth was rejected on a
physical examination and Lucien T.
McCarley is sick and not able to go
at this time. Another man is needed
to volunteer early Monday morning.
If anyone desires to volunteer for
this work he would do well to see
either C. R. Clark or Mrs. Gillock to-
day and give his name.

When a home boy goes to France
as one of a million other soldiers he
cannot expect to see other home
boys often, but it is not impossible.
Arthur Reeder in a letter received by
a friend here said he had just visited
a section near the battle line and
that he ran across Oscar White and
Dudley Stamps, who were operating
motor trucks between the supply
base and the front and they told him
that on one of their recent trips to
the front they saw Jamie Johnson
and Joseph Stites. It was shortly
after this that Joseph Stites was
wounded.

Dr. J. Grant Gaither, one of Hop-
kinsville's leading surgeons and phy-
sicians, has received his orders to re-
port for duty on August 1st. He has
been commissioned as a captain. He
will take his wife and child to Vicks-
burg, Miss., in about a week, where
Mrs. Gaither will remain with her par-
ents during Capt. Gaither's absence.
His place in the professional life of
Hopkinsville will be hard to fill, as
he is one of the best surgeons in West
Kentucky.

Lieut. Harry Ware, who is at
Camp Taylor, has been promoted
from Second to First Lieutenant. He
is the son of Mr. and Mrs. J. H.
Ware and grandson of Judge W. P.
Winfree and entered the service
from Co. D, where he was a noncom-
missioned officer.

John C. Espie, Jr., a former car-
rier boy for the Kentuckian now a
young man of 19 years of age, this
week enlisted in the U. S. Navy at
Louisville. He is a son of Mr. J.
C. Espie, who lived here until a year
ago.

Capt. Preston Thomas, who land-
ed in England, is now in France, ac-
cording to letters received by Mrs.
Thomas.

Ulysses W. Jenkins, son of Mrs.
Althea Jenkins, of this city, has ar-
rived safely in France.

FIRMAN HOPSON.

Firman Hopson, of Trigg county,
who was badly injured in an auto-
mobile accident in June, has improv-
ed so rapidly that he will leave the
Jennie Stuart Hospital today and re-
turn to his home near Cerulean. His
complete recovery is assured.

Out of action from have killed
enemies in Brazil.

Washington, July 13.—Rainy
weather in northern France has prob-
ably had something to do with the
delay of the Germans in renewing
the offensive. It is a month now
since the last mad dash died down.
Meanwhile the Allies have been push-
ing back the Hun lines little by little
which in the aggregate have gained
valuable defensive ground and thou-
sands of prisoners. Little action
took place today, but the French re-
port further progress in the neigh-
borhood of Longpont.

Meanwhile German diplomats are
again airing their war aims and an-
gaging in peace discussions among
themselves. German Chancellor von
Hertling has touched on the vital
question of Belgium and declares that
Germany does not intend to retain
that country "in any form whatever"
nearly holding it as a pawn in ne-
gotiations. Germany also is exer-
cised at the situation in Russia. The
German newspapers fear the Bolsh-
evik regime is tottering, which would
render null German interests in the
Brest-Litovsk treaty.

Washington advices reflect that fur-
ther and more definite peace feelers
may be expected from Germany.

BRITISH SEND REINFORCEMENTS

Washington, July 13.—News of
the dispatch of British reinforce-
ments to Siberia to support the
Czech-Slovak controlling Vladiv-
ostok and the trans-Siberian rail-
road is not believed to be a part of
the Allied intervention with Ameri-
can approval and co-operation. There
is nothing to indicate that President
Wilson has changed his views on the
question of intervention in Russia.

GREAT NEED FOR WORKERS

AT RED CROSS SEWING ROOMS
AND WOMEN ARE URGED
TO RESPOND.

(Contributed.)

There is an urgent need for more
women workers at the Red Cross
sewing rooms, and more knitters in
the homes, and it is hoped that the
patriotic women of Hopkinsville and
Christian county will heed this call
and rally to it.

The Christian county chapter has
been called upon to furnish by Sept.
1:

100 women's house dresses.
700 women's dressing jackets.
500 sweaters.

1,000 pairs of wool socks.

You can readily understand how
much work will be required to get
these things out in the six weeks re-
maining. Yet it must be done, and
other women must rally to the cause.

At the Red Cross rooms here there
are six machines and there should be
a stitcher and two basters for each
machine. In addition several women
are needed to work button holes, saw
on clasps, etc. In the other work
rooms here in the city and through-
out the county similar working forces
proportionately are needed. The Red
Cross rooms here are open each day
from 9 a. m. to 5 p. m. and each day
there is a different supervisor in
charge to direct the work. The condi-
tions are most pleasant, the utmost
harmony prevails and there is great
comfort and satisfaction in knowing
that you are doing something to help
in the great fight for democracy and
liberty and to make the American sol-
diers and the war-stricken French
and Belgians comfortable.

MAY FLANK BULGARS.

The town of Berat, the most important point in southern Albania, has fallen into allied hands. It is reported that large quantities of Austrian supplies stored at Berat were destroyed by the retreating Austrians. Official reports would appear to show that the advance of the French and Italians is reaching further and further east into the mountains and toward the rear of the Bulgarian positions around Bitola. Bulgarian positions near Bitola have been savagely attacked. Bulgarians who, after a momentary foothold in the trenches, were driven out.

The Court of Appeals yesterday took under submission to motion, to enjoin from taking office the newly created State Board of Health. The injunction granted by Judge Robert L. BREAD CRUMBS TWENTY. ONE YEARS FRESH.

Here is a story from Nebraska which will surprise a good many bakers who are very familiar with bread and its keeping quality. W. R. Furman, of York, has in his bakery store a jar of bread crumbs which he considers a curiosity, for the crumbs are 21 years old, and are still as good as ever. On the 2nd of March, 1897, a wedding feast was given, and Mr. Furman made several loaves of bread for the occasion. When the feast was over the mother of the bride found several extra loaves on hand. She proceeded to crumble the bread up and pack it in glass jars, preserving it for future use in puddings, etc. She thought she had used it all up many years ago, but a few days ago she found a jar of crumbs stuck far back in a dark corner. She mentioned the fact to Mr. Furman and he prevailed upon her to bring the jar to his store. The crumbs are as fresh as when canned, and as fit for use.—Bakers Helper.

LOGAN TO QUIT CAPITAL RUMOR

CHAIRMAN OF STATE TAX COM. MISSION REFERS ALL TO GOVERNOR.

Frankfort, Ky., July 13.—Friends of M. M. Logan, chairman of the State Tax Commission are interested in the rumors current here that he will shortly resign as a member of the commission. When asked if he had resigned, or intended to do so, Logan replied that the matter should come from the Governor's office. No information was available there.

Logan came to Frankfort as Assistant Attorney General under Attorney General Garnett. He was elected Attorney General on the last State ticket, resigning over a year ago to accept a place on the State Tax Commission.

It is probable that Logan, if he resigns, will engage in the practice of law. He is interested in the rock asphalt fields of Edmonson county, his home town being Brownsville.

WILLING TO QUIT.

Chancellor von Hertling, speaking before the reichstag, declared at the session Thursday that Germany is willing to consider peace terms when made "seriously" by the allies. He

said that the pacific spirit of Germany's reply to the Pope inspired him, but intimated that the allies want an interminable war. President Wilson, he declared, wants war until Germany is destroyed, and the words of Mr. Balfour were hardly to the liking of the Imperial German Chancellor. Despite this attitude, he said, Germany would stand against her foes.

"Discontinue the buying back of papers at either wholesale or retail selling price from dealers or agents in order to secure preferential representation.

"Discontinue the payment of salaries of commission to agents, dealers or newsboys for the purpose of securing the equivalent of return privileges.

"Discontinue all free exchanges."

PROHIBITION IS NECESSARY

TO INCREASED COAL PRODUCTION SAY OPERATORS—FUEL ADMINISTRATOR IS INFORMED.

(By Associated Press.)

Washington, July 13.—Immediate nationwide prohibition is absolutely necessary if the extra 100,000,000 tons of coal a year needed by the country in its war on Germany is to be mined, Fuel Administrator Garfield has been informed by the National Coal Association, representing bituminous operators producing 400,000,000 tons of coal annually. Dr. Garfield is understood to have laid the association's recommendation before President Wilson for his consideration.

In a statement to-night the association said that in the opinion of a special committee of its members from virtually all coal-producing sections of the country which has investigated the question "the country cannot have both booze and sufficient coal this winter."

Curtailing Production. "The liquor traffic," said the statement, "is curtailing coal production and the time has come to eliminate it if there is to be the substantial increase in coal output the war programme demands."

"The National Coal Association is informed that the conclusion not only is the judgment of the operators, but is concurred in by Frank Farrington, president of the United Mine Workers of America for the State of Illinois. Mr. Farrington is said to have gone on record to this effect before President Wilson, Fuel Administrator Garfield and Senators and Representatives of Illinois in Congress."

L. R. KENNER

THE NEGRO NURSES.

If the National Association of Colored Graduate Nurses is right in believing that the color line has been drawn against them, and that for this reason and no other none of them has been assigned to overseas duty, somebody is very wrong in keeping all of them at home when 2,000 or more are eager to serve."

In the south a good deal of successful nursing has been done by negro women. The qualities and requirements of a nursemaid are of course altogether different from those of an army nurse, but as "practical nurses"

in the sick room the negro women of the South have proved their possession of one of the fundamental requirements—faithfulness to the trust. The unflinching interest of the negro nurse in the patient her power of physical endurance and her unselfish willingness to exert those powers fully have made her highly valued.

There is no conceivable reason why negro graduate nurses should not be useful in Europe. There is no feeling in the South that they ought not to be welcomed in such capacity. It should be borne in mind that the belief of the National Association of Colored Graduate

nurses may be erroneous. If that is true their error should be corrected in such a manner that none of the members of the organization might cling to the idea that there has been a disposition to draw the color line.—Courier-Journal.

"The action lies with the fighting man, but the spirit of victory lies in all—the man, the woman and the child at home.

"Only by faith can we live. The soldiers in France have faith, the sailors, the men who carry war on in the air. Shall the faith of the folks at home be less?

RED CROSS UNITS AT WORK

In the campaign for War Savings Stamps among the colored people, the reports which have come in so far show they have done exceedingly well. Their speakers and solicitors have gone throughout the county enlightening and informing them as to their duty and obligations in this respect. They have held mass meetings at several points on the reports show that they have subscribed more than \$5,000 and many reach \$7,000 or \$8,000 when all reports are in. Red Cross unit No. 1, of Pembroke, of which Rev. W. J. Brown is the president, reported a subscription of \$1,585; and another unit of the Red Cross, of which Rev. Hinchins is the president, reported \$1,010 subscribed from the same place. Their efforts in this respect are a credit to their race. The work has been done under the direction and supervision of C. W. Merriweather of the local bar, to whom, together with his assistants, belongs the credit for the showing made.

CONDITIONS A DISGRACE

LIVES OF PEOPLE ON PUBLIC ROADS ENDANGERED BY SPEEDING WHISKEY CARS.

If the public generally can be believed for the statements made in open conversation on the streets, in offices, shops, and business houses, there exists a practice and conditions in our very midst and elsewhere that are a disgrace to any law-abiding and civilized country and an outrage upon its people.

Both Kentucky and Tennessee have anti-shipping and bone-dry laws designed to prevent and stop the transporting and importing of alcoholic liquors from wet to dry territory. In addition to these, the U. S. Government has the Reed Bone-dry Law, the purpose of which is to stop the transporting of liquors from one state to dry territory in another state. But, it is openly talked, and even boasted, that all these laws are openly and flagrantly violated every day between Hopkinsville and Nashville, Clarksville, Springfield and other cities in Tennessee.

There are five or six big Tennessee cars operating between Hopkinsville and Nashville with a regularity almost equal to that of the Dixie Flyer train. These are Cadillac 8's and always leave here loaded with whiskey, often carrying as much as 20 cases. These cars are driven by alleged bootleggers, white and colored who, according to reports and open boasts, often attain a speed of 60 to 80 miles per hour. These cars always leave here at night and enter Nashville by various and devious routes. They take no concern of travelers on the public highway, more than to signal with the horn and trust to the traveler to give the speeding car the right of way or else suffer the consequences.

These conditions have become almost intolerable to the public between here and Nashville and unless the officers of the State of Tennessee, Kentucky and the federal government take more drastic steps to curb the evil and stop the practice, the people will soon reach the point of desperation and take some steps to protect themselves and their families. This is the character of talk one may hear on the streets most any day.

Just what the authorities of Tennessee and the city of Nashville are doing to put an end to this most disgraceful practice and outrage upon the people is not known here but the expression of the public would indicate that somebody somewhere is exceedingly derelict in duty.

BIG BLOWOUT FOR 200 MEN

WILL BE STAGED BY COLORED PEOPLE WEDNESDAY NIGHT TABERNACLE.

The colored people of Hopkinsville and Christian county are organizing for a big mass meeting at the Tabernacle next Wednesday night in honor of the 200 colored men who will be selected to leave Thursday morning for Camp Taylor. There will be music and speaking.

Thorus Club.
Hiram Smith will be master of ceremonies and Lewis Berry will introduce the speakers of the evening who is none other than Prof. J. W. Bell, of Earlinton.

Prof. Bell is one of the best colored Y. M. C. A. secretaries of the country and is a prominent educator of his race. He is just back from Washington, D. C., where he attended a Liberty conference and of which he was secretary. While in Washington he called on President Wilson, Vice President Thos. R. Marshall, and Speaker of the House of Representatives, Hon. Champ Clark. Prof. Bell will have much to tell the colored people and others who desire to hear him.

The music will be furnished by the Thorus Club. "Nuff said" about the music.
After the meeting at the Tabernacle a banquet will be held at Friendship Hall in honor of the speaker of the evening. J. T. Whitney will be toastmaster.

BIG MIX PICTURE AT THE REX.

A new Tom Mix picture is announced for the Rex Tuesday. It is called "Ace High." The noted William Fox Star will appear in a new light and great deal of interest is awakened thereby.

In this new drama he is a member of the Royal Northwest Mounted Police, and his exploits are largely in the midst of the Canadian wilderness. However, the character that he presents is very much the same as that which has appeared in his former productions. He is the same daring man and he makes love in the same dashing way.

Tom Mix has been making a splendid record in the recent pictures that William Fox has given him, and everybody is interested in anything that he may do hereafter.

Importance of the Follower.
Not all can be leaders; some must follow, notes a writer. It may be that you are eminently qualified to follow the leadership of some one. If so, follow gracefully. The follower is none the less honorably, none the less important, none the less admired.

Cook Makes Good Start.
"I see you have a new cook." "Ten are right." "Is she experienced?" "I surmise so. She started the first day by coming late, and then asking for the afternoon off."
